### ***Drawings***

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because Figures 1-2 should be labeled with "PRIOR ART" and each of the rectangular boxes in Figure 1 should contain a descriptive label so that the function of each rectangular boxes becomes appearance . Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

In addition to Replacement Sheets containing the corrected drawing figure(s), applicant is required to submit a marked-up copy of each Replacement Sheet including annotations indicating the changes made to the previous version. The marked-up copy must be clearly labeled as "Annotated Sheets" and must be presented in the amendment or remarks section that explains the change(s) to the drawings. See 37 CFR 1.121(d)(1). Failure to timely submit the proposed drawing and marked-up copy will result in the abandonment of the application.

### **INFORMATION ON HOW TO EFFECT DRAWING CHANGES**

#### **Replacement Drawing Sheets**

Drawing changes must be made by presenting replacement sheets which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments section, or remarks, section of the amendment paper. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). A replacement sheet must include all of the figures appearing on the immediate prior version of the sheet, even if only one

figure is being amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and within the top margin.

### **Annotated Drawing Sheets**

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheet(s) must be clearly labeled as "Annotated Sheet" and must be presented in the amendment or remarks section that explains the change(s) to the drawings.

### **Timing of Corrections**

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

### **Specification**

2. The specification is objected to because there isn't any detail description of Figure 2 in the Detailed description of the invention.

### **Information Disclosure statement by Applicant (IDS)**

3. The document "AB" under Foreign Patent Documents section and Articles "AC" and "AD" under Other Prior Art section have not been considered because these document and articles have not been received by Examiner. Applicant is requested to

submit the aforementioned document and articles so that Examiner can consider them fully.

***Claim Rejections - 35 USC § 112***

4. Claims 8, 9 and 12-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 8, line 1, "The method of claim 8" this claim is rejected because a claim can not be dependent on it self. Correction is required.

As per claim 9, this claim is rejected because it dependent upon the rejected base claim.

As per claims 12, there are two claims 12. Please renumber them or cancel one. In addition to claim 12, second occurrence , is rejected because it dependent upon the rejected base claim.

As per claim 13, this claim is rejected because it dependent upon the rejected base claim.

***Allowable Subject Matter***

5. The following is an examiner's statement of reasons for allowance: Claims 6-7 and 10-11 are allowable over the art of record. This is because the art of record does not disclose the invention as recited in claim 6 and 10, including detecting and reporting faults on each transmission line simultaneously to a link supervision block associated with the receiving node, wherein the link supervision block is adapted for storing fault causes received from the termination boards;

Art Unit: 2138

Correlating the fault causes received from each termination board and switching between the active transmission board and the standby transmission line termination board;

Comparing the persistency of fault time periods in each transmission line with a predetermined period;

Determining that a correlation of the fault causes and the comparison of the fault time periods indicates a traffic disturbing fault on the active link; and

Switching the traffic from the active line termination board to the standby line termination board.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
